

## Food Handler Health Declaration & Medical Fitness Undertaking

*Required for food-safety compliance under Schedule 4 of the FSS Regulations*

**Employee Name:** \_\_\_\_\_

**Designation:** \_\_\_\_\_

**Date:** \_\_\_\_\_

As a person who will come into direct contact with food at Alinea, operated by Traverse Inc. (the "Company"), I understand that I must be free from any disease that could contaminate food, and that the Company is required to keep a record of my medical fitness. I make the following declaration and undertaking.

### 1. Health Declaration

To the best of my knowledge and belief, I am not currently suffering from, nor am I a known carrier of, any communicable or infectious disease that could be transmitted through food, including in particular:

- typhoid, paratyphoid, or other Salmonella infection;
- hepatitis A or hepatitis E (food- or water-borne jaundice);
- active tuberculosis (TB);
- dysentery, gastroenteritis, or other diarrhoeal illness;
- infected skin conditions such as boils, sores, or septic cuts on the hands or exposed skin;
- discharging infections of the ear, nose, or eyes.

I confirm that the information I have given about my health is true and complete, and that I am, to my knowledge, fit to handle food.

### 2. Ongoing Obligation to Report

1. I shall immediately inform my manager if I develop any of the following while employed: jaundice, diarrhoea, vomiting, fever, sore throat with fever, visibly infected skin lesions (boils, cuts, sores), or any discharge from the ear, eye, or nose.
2. I understand that if I have or report any such condition I may be required to stop handling open food until a registered medical practitioner certifies that I am fit to resume, and I agree to comply with any such instruction.
3. I shall maintain high standards of personal hygiene and shall follow the Company's food-safety and hygiene procedures at all times.

### 3. Medical Fitness Certificate

I understand that FSSAI requires food handlers to hold a medical fitness certificate from a registered medical practitioner, obtained at the time of joining and renewed at least once a year. Please indicate your position:

☐ I already hold a valid medical fitness certificate and have attached a copy.

☐ I do not yet hold a valid certificate, and I opt for the Company to arrange my medical examination (Section 4).

### 4. Company-Arranged Testing (Opt-In)

If I do not already hold a valid certificate, I opt for the Company to arrange the medical examination and tests set out in Schedule A through its designated practitioner or laboratory. I understand and agree that:

1. the cost of the examination and tests will initially be borne by me;
2. the Company will reimburse this cost to me in full after the successful completion of my probation period, on production of the receipts and my valid fitness certificate;
3. the resulting medical fitness certificate will be kept by the Company in my records for food-safety compliance, and will be handled confidentially.

## 5. Schedule A — Medical Examination & Tests

The examination and tests below reflect the FSSAI Schedule 4 requirements for food handlers and standard screening for food-borne communicable disease.

| Examination / Test                                                  | Purpose                                                          |
|---------------------------------------------------------------------|------------------------------------------------------------------|
| <b>A. Clinical examination</b>                                      |                                                                  |
| General physical examination                                        | Overall fitness to handle food                                   |
| Eye examination                                                     | Vision and any eye infection                                     |
| Skin examination (hands & exposed skin)                             | Cuts, boils, sores, or skin infections that can contaminate food |
| Ear, nose & throat examination                                      | Discharging or infectious ENT conditions                         |
| <b>B. Laboratory tests (food-borne communicable disease screen)</b> |                                                                  |
| Complete Blood Count (CBC)                                          | General health and infection screen                              |
| Urine routine                                                       | General screen                                                   |
| Stool routine & microscopy (culture if indicated)                   | Intestinal parasites and typhoid / Salmonella carriage           |
| Widal test                                                          | Typhoid / paratyphoid                                            |
| Chest X-ray or Mantoux (tuberculin) test                            | Tuberculosis (TB) screening                                      |
| Hepatitis A / E screening (if indicated)                            | Food- and water-borne hepatitis                                  |
| <b>C. Vaccination (enteric group, per FSSAI)</b>                    |                                                                  |
| Typhoid (TAB) vaccination                                           | Immunisation against the enteric group of diseases               |
| Hepatitis A vaccination                                             | Immunisation against food-borne hepatitis                        |

**Note:** This screening targets diseases that can be transmitted through food. Blood-borne infections such as HIV and hepatitis B and C are not transmitted through food and are not part of this screening. Consistent with the HIV and AIDS (Prevention and Control) Act, 2017, HIV testing is not required and is not a condition of employment.

## 6. Acknowledgement

I confirm that I have read and understood this declaration and undertaking, and I agree to be bound by it.
